

Lucie Aman Welfare Manifesto

I'm a third year PhD student in psychiatry and I was one of the MCR welfare officer last year.

I enjoyed it and it's why I would like to apply again this year.

Last year, in addition to regularly baking for tea and cakes, I conducted a college wide survey (with the JCR welfare officers) about the change in the Universal Bus to ask students how this was affecting them. The results of this survey were communicated to the senior tutor of the college and to the Disability Resource Centre. I am still working on this matter, and I hope together we can make things change. I also ask for Merlin, the therapy dog to sometimes come during evenings when graduates are not at work.

In addition to the UBus problem, if I'm elected, I will keep baking for tea and cakes (I heard that I make excellent brownies and cookies!). I also would like to directly improve student wellbeing in one of the places where we spend most of our time: college accommodation (e.g. picture rail, blinds etc) in asking MCR members what is bothering them or can be improved, and then discuss with the MCR committee what can be done to improve the wellbeing feeling in college.

I am a very good listener, and I have received welfare training. if I'm elected I'll do my best to listen and support people who need it and direct them to the right person in college or University to solve their problem if needed.
