

Tavy Oursin for Communications Officer!

About Me:

- First year MMLer.
- Ginger and tall.
- Loves the Griff and a good chat.
- Approachable, outgoing and organised.

What will I do for you?

- **Continue to keep everyone updated** on any Homerton events, campaigns, meetings and opportunities and anything else of interest through our social media and the weekly bulletin.
- **Add segments to the bulletin that Homertonians can contribute to** which will increase the sense of community:
 - A section to highlight and celebrate any achievements that any Homertonians have done that week to increase the sense of community.
 - A funny end to the bulletin where students can send any things/photos they have seen or heard in Homerton.
- **Continue to use the JCR Facebook group** as a central point for any Homerton related communication.
- **Really increase the use of the HUS instagram** to promote any events and share photos of the HUS and the wider student body, which again will boost the sense of community.
 - Use the instagram highlight reels especially so that any useful information will remain for others to see at a later date.
- **Communicate and work with the different JCR officers** to ensure that anything they organise is clearly known about.
- **Produce a term card** with all of these events that will have **corresponding Facebook events** so that everyone is kept well-informed of any changes and reminded.
- **Create an engaging and welcoming Freshers' guide** that will help the incoming freshers to feel settled.
- **Compile a document of important college contacts** of emails and phone numbers so that if anybody needs help, they can get it quickly and efficiently, making life at Homerton much easier.
- Maybe create a HUS JCR tiktok...

Why me? - Experience:

- I'm the **secretary for Cambridge Women in Media Society** where I am in control of the email, communicating information to the members of our society and
- I'm involved in Cambridge Theatre, where I have **acted and helped to produce and publicise shows** where I have needed to be communicative and efficient but it has also helped me to become more expressive and creative.
- I'm doing a **language degree**, one that has **communication** at its heart, so I feel that I would be able to convey information well and concisely.
- I use social media a lot which will be very useful as I would be in control of the HUS social media accounts.
