

Liberty Vincent For Treasurer 2022!

About me:

I'm a second year English student from a working-class background, so I know the value of improving access here at Homerton. Having been an LGBTQ+ officer last year, I'm familiar with the procedures involved in running the HUS and I'm confident I will be a valuable member of the team! I have experience with – and consider myself very adept at – budgeting carefully.

Why am I running?

I'm passionate about supporting the many societies we have at Homerton, and through this encourage student wellbeing outside of academia. As someone who has had to attempt to navigate the financial aid systems in place in Homerton, I am aware of how difficult and emotionally taxing these can be. I want to provide support for working-class and lower income students going through these procedures and hopefully improve access within the college community.

My Manifesto:

I already have a year's experience on the HUS, so know the systems in place and will be efficient and proficient in its running. As treasurer I will:

- **Liaise** with the relevant staff, societies and clubs ensuring this system works smoothly.
- **Support** the rest of the HUS team, to ensure we can do the best job for the wider college community.
- Provide greater **clarity** on HUS budgets and spending.
- Implement **feedback** mechanisms to understand where students want us to prioritise spending, and how the HUS can further enrich student life.
- Ensure that there is an **even distribution** of society funding, including in the setting up of new societies.
- Push for **transparency** surrounding the financial aid committees, their distribution and provide support for the students going through these processes.
