

Alfie Davis - Sports Officer Candidate Manifesto

I will:

- Ensure that there is greater accessibility to sports teams throughout the year, not just in Freshers week. One easy way of doing this would be to maintain the list of sports captains so that individuals can get involved or ask questions throughout the year.
- Ensure that there is greater publicity about College sports as a whole, both for those who participate but also for those who wish to support and spectate.
- There will be the creation of a weekly newsletter with updates from each team on scores and standout performances which will be sent out to the whole student body.
- Ensure that there will be continuous communication between myself and the sports captains to allow for any issues or problems to be sorted and solved efficiently and effectively.
- There is also the need for greater strengthening of relations between sports at a college level and the University systems as a whole. This allows individuals with ambitions to demonstrate their progression and to catch the eye of those within the University setup.
- Present the opportunity for professional team photos during Lent or Easter terms.
- Ensure that the college sports facilities (gym, pitches, courts etc.) are well maintained.
- Promote sport, in any form, as an excellent boost for mental health. Happy mind and happy body.
