

Arel Akaunu - Personal Social Development Officer Manifesto

I will:

- Ensure valuable and relevant HUS careers events take place. Companies present at these events should reflect the diverse student body we have as well as align with students' needs.
- Work with the College's alumni mentoring scheme to ensure foster relationships between current students and alumni.
- Require that all fundraising and careers events, talks and workshops are publicised effectively so students are aware of the opportunities available.
- Carry out surveys to find out which industries/companies the student body are most interested in.
- Notify students about relevant job, volunteering or personal development opportunities via email and social media.
- Promote opportunities that are targeted toward under-represented groups.
- Advise the Tutorial Office on the programme for Personal Development so that it is tailored towards students' key needs.
- Work with the Changemakers Steering Group to provide events and opportunities that cater for students' needs.
